

TECHNICAL RIDER

Vespaqua FootBathTerrace

General

We are a team of 2
We perform 5 hrs continuously
We travel by van / trailer
We need 2 hrs time building up

Space

- preferably 7x7m flat place
- We can play music if desired (normal volume on a normal stereo)

Materials

- We bring our own gas to heat the water.
- We need 220V for our turntable and stereo.
- We need water for the footbaths (hose)
- At some point we need to be able to drain the water again
- In case of night time performing we ask from the festival to take care of appropriate lighting.
- We bring enough towels for our footbath guests

Hygiene and safety

- The water is stored in a stainless steel tank and is pumped with approved clean water pumps.

Parking

- We travel with a van and trailer and we need a parking space near performance place.
- Our van needs to be able to reach the performance place for unloading.
- We need a safe place for storing our equipment during the night or a night guard.

Hotel/meals

- In case of an overnight stay we require two single rooms or one double room (depending on the team)
- We ask from the organizer to arrange the meals as well as some drinks and fruits.
