

Technical data

Nieuw Dief

Surface:

The total surface needed for both caravan and tent needs to be even. That means no curbs or other differences in height (There's a construction inside the tent that needs to be parallel with the caravan window).

Voltage:

220Volt 16 A 1000W

Jesus' Miracle Lab

Necessary space for the show:

Front:	9 meters (including towpoint).
Height church spire:	5 meters.
Depth:	4 to 5 meters (including "frontgarden" to secure a good entrance and exit for the audience)

Caravan data:

Length (heart connection to end vehicle):	5,60 meters.
Width:	2,17 meters
Height:	2,30 meter
Weight:	900 kg
