

## HENDRIK-JAN DE STUNTMAN ONTMOET MEREL KAMP

# SPRINGTIME

## TECHNICAL RIDER

### General

Length: 20 minutes, max 3x per day (within 5 hours)

Audience: ca. 300 persons, in a semi circle in front of the show

Team: 2 persons

### Location

Area 9m wide x 4m deep + 5m high; level and flat.

### Our rigg

➤ We bring our own construction (9w x 4d x 4,5h). Its a stand alone construction, we do not need ankering or weights.

➤ In case of a thunderstorm/lightning we must cancel or postpone the performance for safety reasons.

### Light & sound

We ask the festival to provide a sound system with 2x XLR-points (or RCA connector) to connect our iPad

220 volt electricity for hooking up our special effect.

Access to water close to the location to get water for special effect.

Shoud we perform at night, we ask to festival to provide sufficient lighting.

### Setting up / breaking down

Our van must be able to reach the location for loading and unloading.

➤ We need 45 min. to set up and 30 min. to break down.

### Security

The construction must be surveilled between performances and at night.

Before and during each show we ask someone from the festival to seat the audience.

### Backstage

Please provide us with a backstage at walking distance from the location.

We ask for water and fruit at the backstage.

### Parking

We travel with a van of 5,5 meters. Please provide us with a parking spot near the location.

If we perform more than 1 day, and have to break down the installation at night, we take a cart of 5,5 meters and ask for a secure location to park it.

### Hotel/catering

If an overnight is agreed, we ask for 2 single rooms, at walking distance of the location.

We are both vegetarians.
