

## DEEP

### TECHNICAL RIDER

#### General

Sideshow – 10 minutes.

All ages

Audience: Minimum 15 – Maximum 35  
8 times per day (more is possible)

Team: 2 persons

#### Location

Hard, flat and even surface

Area needed: 8x8m.

➤ Our tent is 6,5 meters ø – 3,5 meters high

➤ Outside or inside; Inside we need a separate room for the show.

#### Electricity

We need 220 volt 16 amp

At night we need light outside the tent(to be supplied by the organizer).

#### Building and breaking down

➤ We need 7 hours to set, 3 hours to break down.

Our car must be able to reach the location for unloading.

➤ Unless otherwise agreed we build up the day before the first show and break down directly after the last show.

#### Production

Safe / surveyed / closed situation during our brakes and at night with fences and/or guard.

Some benches to seat waiting audience. (optional)

Fire extinguisher.

First Aid Kit

a combination ladder

4 heavy weights to anchor our tent.

Optionally 1 volunteer from the festival to help us and guide the audience.

You make us very happy with water and fruits in the backstage.

#### Transport / meals / hotel

➤ We travel with 2 persons in a car + trailer.

A free and safe parkingplace.

In case of an overnight stay, we prefer two single rooms.

Depending on the team one of us is possibly a vegetarian, gluten-free, nut-allergic. (Sorry)
