

## Technical Rider

# Lance Moi en l'Air

### General

Length: 25 minutes  
 Public: 300 – 500 persons (or more)  
 Outdoor and indoor  
 Max 2 shows per day  
 The public can be seated on three sides.  
 Team: 2 persons

### Space

- Stage or floor: !! not less than 6m x 6m X 4,5m high, flat and levelled
- Wooden floor or mats (pvc dance floors can get too hot for us), no grass or sand.
- We can bring our floor and are thus able to play on hard, flat and level undergrounds.
- A quiet background.
- Lance Moi en l'Air can not perform in the rain, extreme heat and very strong wind. Joli Vyann will be as flexible as possible and will do all to perform.

### Sound & light

- The festival needs to supply a sound system sufficient for a 500 persons audience and the possibility to connect an MP3-player or laptop.
- The festival needs to provide a clever person to push 'play' during the shows and the rehearsals.
- The festival will have to take care of the lighting in case of performing after sunset. Basic stage light is good.
- We can bring our own sound system if we travel by minivan.

### Backstage

- We need a space where we can warm up and change near to the performance area.
- We like to have fruits and water in the backstage.

### Set up/Break down

- If we come with own materials in our van, we to be able to reach the performance area.
- We need 45 minutes to set up and space after the stage is ready. Breaking down takes 2 minutes. When we bring our floor, break down will take 30 minutes.
- With lighting the set up will take longer.

### Hotel & Meals

- If an overnight is agreed, we need 1 double room.
- Both are carnivores, no diets.
- We like to point out that we prefer eating light some time before the show and we need calories after the show.

### Travel

- We travel by plane, train or car with a little extra luggage.
- We can travel by minivan to bring our own floor and sound.
