

Technical rider WoodLand - DeJong&DeWitte

General

Genre: Site specific multiple stations
Length: ca. 60 minutes, 2 and max 3x/day (minimum 1,5 hour break in between)
Team: 4 persons
Audience: 35 persons
Technical: electricity
Location: Trajectory in green environment

Locations

We need 1 starting point and 5 locations for the scenes and smaller scenes in between.
We prefer to perform at daytime.

Preparation

- We ask the organizer to select a suitable location and to communicate this with us.
We can either come to see the space or if needed use google earth and a video connection.
- We arrive on performance day minus 3 and use 2 full days to prepare the set.

Licht & geluid

- In case of evening presentations, we ask the organizer to provide basic lights for visibility.
- We provide electricity for certain scenes ourselves.
- We need power supply at starting point

Team

- We are 2 performers, 1 technician and 1 production-assistant.

Backstage

- We wish to have a lockable backstage near the performance area.
- A toilet and water in the backstage is desirable but not a must.

Transport / Parking

- We travel with a minivan and a trailer + car or public transport.
- We need to unload on the performance place.

Hotel / Meals

- 1 double and 2 single rooms if possible.
- We are 2 omni and 2 vegetariens.
