

Technical Rider

Fisura

General

Company: Murmuyo
Show: Fisura
Length: 45 - 50 minutes
Audience: 250 persons / all ages
Maximum: 2 shows per day
In between: min. 2 hours from end of first show till the start of the second
Team: 2 persons

Space

- Street or grass space (no stage), 10x10 metres.
- We prefer a semi-circular spot where Murmuyo can focus on the audience in front of him.

Sound, light & technique

- Adequate sound set for the expected audience size.
- We will send you the two soundtracks in advance.
- We ask you to provide a suitable player with our soundtracks to connect to the sound set.
- We ask a wireless microphone with a stand and with echo-effect, connected to the sound set.
- In case of an evening show we ask for a general lighting for the space and the audience.
- We need 3 large white buckets (20-25 litres) and 2 small white buckets (5-10 litres) with cover.
- We need access to water near the performance area to fill balloons with water.
- We need 1 sound technician who helps set up approx. 2 hours before the first show and is present during the show.

Car

- We need a small car with mini-jack or Bluetooth connection and room to fit 5 buckets. We can rent the car if we need it for transport from the airport (see the information under **Travel** below).
- The car must be able to drive to and from the performance area to the backstage. Please provide permits, exemptions if needed and parking space at the backstage.
- If the car drives in closed off areas with audience walking around we need 2 persons to accompany the car to and from the performance area, for the security of the audience and to help navigate the crowd.

Backstage

- We need a space where we can warm up and change close to the performance area.
- We need 2 chairs and 1 mirror, a toilet and showers, fruits and water.
- We need a place where we can fill the balloons with water.

Set up/Break down

- We are most comfortable when the space is ready and the sound is checked min. 1 hour before the show.
- Breaking down takes 15 minutes.
- The performance area will be wet after each show (water wiper, broom).

Hotel & Meals

- If an overnight is agreed, we need two single rooms.
- Depending on distance and performance times, we usually arrive the evening before the first show and leave the morning after the last performance.
- We are both carnivores with no diets.
- We like to point out that we prefer eating light some time before the show and we need calories after the show.

Travel

- We travel by plane, train or car with 23kg extra luggage.
- If we don't rent a car, we will need a pickup at the airport or nearest train station.
- If we rent a car, the costs will be added to our travel expenses. We can then use that car in the performance.
